Our litigators and trial lawyers are true players in the Fortune 500 legal market. We represent clients in the most challenging litigation, often involving novel legal or scientific issues and we handle high-stakes complex litigation, class actions, and trials. Our attorneys and firm cases appear in major news outlets such as CNN, *The Economist*, and Law360, and many of our attorneys have been honored to receive distinctions, including: Benchmark Litigation Minnesota “Stars” and “Future Star”; “Life Sciences Star” by LMG Life Sciences; “Leading Lawyer for Product Liability and Mass Tort Defense” by The Legal 500 United States; and Best Lawyers in America®. In December 2013, Blackwell Burke P.A. received the Excellence in Service Award from General Mills, Inc. for the firm’s “outstanding partnership and service” to General Mills’ legal department. Most recently, the Firm was included on the 2015 *U.S. News & World Report* and Best Lawyers® Best Law Firms list with a ranking of “Metropolitan Tier 2 for Products Liability Litigation-Defendant.”

PRACTICE AREAS

Trial Practice – Blackwell Burke P.A. attorneys have a national reputation for trial success. We enjoy inspiring our clients’ confidence, preparing experts for precise and rigorous presentation, developing our witnesses’ comfort and fortitude for trial, and partnering with talented trial graphics designers to present – simply and compellingly – your best case. Blackwell Burke P.A. clients appreciate our meticulous development and presentation of their cases, but what they appreciate the most is our results.

Class Action Defense – We defend clients in areas ranging from retail sales to marine engines, wage and hour claims to alleged product defects. This litigation has involved classes of thousands of employees and consumers, numerous witnesses and hundreds of exhibits. We also work with clients to develop strategies to minimize the potential of class action certification, and zealously defend cases that are brought to trial.

Products Liability – Our attorneys have defended products liability claims involving asbestos, silica and benzene, medical devices, automotive, industrial, mechanical, chemical, petroleum, structural, metallurgical, and fluid dynamics issues. Firm attorneys serve as national counsel to major corporations, and have handled lawsuits nationally and internationally.

Toxic Torts – Our attorneys have extensive experience in the defense of cases involving alleged workplace exposure to asbestos, benzene and silica products purportedly manufactured, distributed, and/or sold by our clients. Historically and presently, our attorneys have served as national trial counsel for manufacturers in numerous asbestos and silica cases. Our role as national trial counsel encompasses the entire nation, including some of the worst defendant jurisdictions: Madison County, Illinois; Alameda County, California; the City of St. Louis, Missouri; and Independence, Missouri, among others.

Drug & Device – We currently serve as preferred counsel to one of the world’s largest medical device companies, and national product liability counsel to a global manufacturer of implants and surgical products for the extremities. Our diverse science counsel assignments and many successful *Daubert* challenges give us uncommon fluency in science, medicine, and medical technology. Our team includes an LMG “Life Sciences Star” and a medical device engineer with five patents.

Commercial Litigation – We represent corporations, businesses, and individuals in connection with a variety of commercial matters including class action defense, antitrust issues, sales practice matters, licensing and registration issues, breach of non-compete and royalty agreements, personal property and non-residential real property leases, distributor agreements, replevins, prejudgment seizures, real estate matters, and all types of commercial-related matters.

Food Industry Defense – Our attorneys provide legal advice and counsel to clients faced with potential regulatory actions, product recalls, supplier disputes, contamination source identification, ingredients (such as diacetyl), and evidence preservation matters.

Labor & Employment – We represent a wide variety of companies in providing creative and cost-effective solutions to their labor and employment needs and we have hands-on trial experience defending wage and hour class action suits. Our attorneys have handled employment matters in various state and federal courts, administrative agencies (such as EEOC, OSHA, and other local and state equal employment opportunity agencies), and appeared before state and federal appellate courts.

The National Association of Minority and Women Owned Law Firms

The National Association of Minority & Women Owned Law Firms (NAMWOLF), founded in 2001, is a nonprofit trade association comprised of minority and women-owned law firms and other interested parties throughout the United States. Many corporations and public entities interested in diversifying their outside law firm ranks have focused almost exclusively on the utilization of minority and female attorneys at majority firms. Yet, the available data strongly suggests that these efforts have not resulted in greater diversity in the legal profession. It is NAMWOLF's view that the most effective way for corporations to increase diversity in the legal profession is to increase their retention of minority and women-owned law firms. NAMWOLF's Law Firm Membership is comprised of AV-rated firms across the nation which represent major corporate clients. NAMWOLF assists its Law Firm Members in developing strategic alliances, coalitions, and affiliations with corporations, in-house counsel, and other legal trade associations.

Insurance Practice Area Committee

Great potential lies within the Insurance Industry for companies to achieve their diversity goals by utilizing experienced, highly-skilled, AV-rated minority and women-owned law firms who specialize in areas of law that are unique to the insurance industry. Through this Committee, NAMWOLF strives to meet the needs of in-house counsel and claims departments by facilitating opportunities for insurance companies and NAMWOLF member firms to develop mutually beneficial partnerships.

INTEGRITY, FRIENDSHIP, AND TRUST. These are the principles on which CHEN MALIN LLP is founded. We are passionate about getting the right results. We believe effective advocacy is never formulaic; complex issues may be explained simply; and clients deserve clear answers.

Our approach has led to uncommon results, which has led to rankings in *Chambers USA*, *Best Lawyers*, *Benchmark Litigation*, *Managing IP*, *Super Lawyers* (TX), and *Martindale Hubbell (AV-Preeminent)*, to name a few. *U.S. News' Best Law Firms* recognizes CHEN MALIN LLP as a Tier 1 Firm (Dallas/Fort Worth) in the areas of Litigation—Intellectual Property; Litigation—Patents; and Patent Law. *Managing Intellectual Property* ranks the Firm alongside multiple national and international firms, and states that the Firm, in its first year of operation, “has already made a name for itself.”

Our lawyers are passionate about getting it right, and here is how we are viewed by our clients:

“one of the most effective and efficient counsel I have ever worked with”

“great understanding of business operation(s)”

“coalesces ... technical knowledge ... legal acumen ... and negotiation skills to provide ... exceptional legal advice in a 'user-friendly' manner”

“a strong trial lawyer ... admired for his ability to assimilate and simplify complex technological details in IP disputes of all kinds”

“extensive expertise and abilities as a litigator, negotiator and advocate are obvious”

We are one of a handful of teams in the country that have successfully litigated a F/RAND case to verdict. Our cross examinations of opposing experts have been case-dispositive in bet-the-company cases. And the results that we achieved in transactions have led our counterparts at Fortune 50 companies to seek our counsel after the conclusion of the negotiations.

HOLLINS LAW ATTORNEYS

FIRM OVERVIEW

Fearless trial advocacy is a great way to describe the litigation approach employed by Hollins Law, a Top 50 Orange County law firm established more than 35 years ago. It is recognized as a preeminent, AV-rated firm.

Hollins Law provides a wide range of representation in various practice areas, including Business Law and Litigation, Catastrophic Injury, Employment Litigation and Insurance Litigation, among others. However, Hollins Law's practice – no matter the underlying area – leads back to a singularly unique quality few firms possess among today's overcrowded courtrooms: the ability to try cases.

The extensive trial experience of the firm's attorneys allows the firm to provide a cost-effective litigation approach that attracts clients. Hollins Law embodies the adage that you can always settle a case that is prepared for trial, but it is impossible to try the case that was only prepared to settle. It is this balance that Hollins Law provides to the great benefit of its clients.

Kathleen Mary Kushi Carter • Managing Principal

THE POWER OF PERSPECTIVE

We are a “go-to” law firm for high-stakes litigation, for matters that may impact the highest levels of any business organization, and for matters that require the utmost discretion and confidentiality. In the last year alone, our firm successfully represented an international chemical manufacturer in a trial involving allegations of environmental contamination and successfully represented a Fortune 500 company in a trial involving what may be the first case in Florida involving transgender discrimination allegations. In the last six years, we have taken twelve matters to trial. Clients routinely retain us in such instances because we analyze problems, offer practical advice, provide the benefit of our substantive experience from pre-suit through post-judgment and, most importantly, make it our primary goal to get results through efficient and effective case management.

SETTING THE PACE

KUCHLER POLK SCHELL WEINER & RICHESON

At Kuchler Polk Schell Weiner & Richeson, experience, integrity and an unrelenting desire to achieve success for our clients are our guiding principles.

KUCHLER POLK ON DIVERSITY

Kuchler Polk is a certified Women's Business Enterprise ("WBE"). Four of our five founding partners are women, one of whom is also a minority.

To us, diversity is about our client often being the only party in the courtroom with female or minority lawyers who actually have a speaking role and are in command of the litigation. We feel diversity is about having corporate clients who truly trust us with their complex litigation and not simply the "small stuff." Diversity is about having jurors anxious to see us in action to determine if we can "hold our own" against the more traditional gray-suited lawyers and finding that we do more than just hold our own. Diversity is about being able to relate to that working mom on the jury because we are working parents, ourselves. Diversity is about speaking the language of the everyday person who just happens to be sitting on the bench or in the jury box because we are everyday people. Diversity is who we are – not something we do. Because of who we are, our female trial lawyers are in high demand with our Fortune 100 clients and we're achieving great trial results for them.

McDonnell & Associates actively promotes women and minorities in its hiring and promotional practices. Among the firm's leadership, 75% of our partners are women and 25% are minorities. Further, McDonnell & Associates actively recruits and partners with other diverse suppliers for goods and services utilized by the firm. The firm is active in the community; and most of our attorneys serve in various capacities with many charities.

Firm Demographics and Geographical Practice Area:

From our offices in Pennsylvania and New Jersey, McDonnell & Associates provides exceptional individualized legal services to some of our nation's largest corporations. We are a mid-sized litigation boutique with the experience of a large law firm. Our professionals represent businesses in the practice areas of employment law, transportation, premises liability, premises security, and products liability. Our lawyers have tried over 100 jury trials to defense verdicts in multiple jurisdictions. The firm's lawyers frequently serve as national or consulting counsel to a Fortune 500 corporation in catastrophic medically complex cases; and have created a network of preeminent medical experts to assist with the defense team. The firm also has specialized expertise in litigation arising from criminal acts of third parties where there are allegations of inadequate security or the misuse of firearms. In defending complex and catastrophic cases, our professionals utilize focus groups, mock trials, and on-line opinion exercises to develop favorable data-proven strategies and risk analysis. We have adapted the same winning strategies to employment and other complex business litigation.

Results:

Serve as coordinating and trial counsel for a large retailer for Complex Regional Pain Syndrome ("CRPS"), traumatic brain and spinal cord injury cases throughout the country. In that capacity, we recently obtained a defense verdict in New Jersey arising from a display collapse where the plaintiff demanded multi-million dollar damages allegedly due to CRPS treated with multiple surgical and interventional procedures.

Successfully defended a catastrophic multiple-fatality motor vehicle accident in two separate jurisdictions where the plaintiffs claimed that an employer required its manager to work a 22-hour shift before he fell asleep at the wheel during his drive home. Addressing a legal issue of first impression, both federal and state courts separately rejected any employer's duty to prevent a fatigued employee from operating his personal vehicle to drive home.

Successfully defended a workplace shooting for a large retailer where a customer purchased ammunition and then shot his wife, an off-duty employee, in the back of the store. The District Court and then the Third Circuit held that an employer has no duty to prevent domestic violence at the workplace and an ammunition retailer has no duty to screen purchasers for signs of mental illness or homicidal tendencies.

Served as defense counsel in formulating a national trial strategy for "take home" asbestos cases. Focus groups were conducted in multiple magnet jurisdictions throughout the country to test themes and evaluate likely jurors' reaction to certain epidemiological evidence.

Before it was a firm, Lincoln Derr (“LD”) was a concept. Sara and Tricia envisioned a progressive law firm without tiers, astronomical hourly rates and pretentious offices. They pictured a firm modeled after successful corporations, rather than inefficient, outdated, hierarchical structures. Together

Sara R. Lincoln and Tricia M. Derr

they visualized a law firm that could respond fluidly and adapt quickly to the changing legal environment. After hours of research and soul searching, they decided to create a solution.

LD was founded in 2009 and has doubled in size every year since inception. Our Firm remains a dynamic concept – constantly evolving our legal strategies in response to developing trends, client needs and advancing technology.

Our legal strategy mirrors our business concept. We believe in pragmatic solutions to sophisticated problems. We embrace change and welcome innovation. Our attorneys communicate effectively, efficiently and strategically both inside and outside the courtroom. We approach each case with both practicality and creativity. Most importantly, we love what we do.

LD specializes in the art of advocacy. Our clients include corporations, national insurance providers, regional medical centers, physician practices and financial institutions. Our clients are our most precious asset. We serve them with tenacity and loyalty.

Solving Your Legal Problems Is Our Business!

About the Firm:

Martinez Law Group, P.C. is a Colorado-based law firm specializing in employment and civil litigation, investigations, and employment law counseling. The firm handled the landmark medical marijuana case in the State to date: a challenge to its client's (an employer's) ability to fire a medical marijuana user who tested positive for THC in a random drug test. After oral argument last year, the Colorado Supreme Court issued a unanimous decision in favor of employers in June 2015.

The firm is only a half dozen attorneys, but it is small by design. Our matters are staffed sufficiently, but leanly. Although most arrangements are based on some form of the hourly-rate model, the firm's attorneys have the ability to work with different types of rate structures. They work on numerous cases that are provided from referrals (including opposing counsel), or past clients. Martinez Law Group understands that the most powerful recommendations come from past experiences and word of mouth.

The firm's attorneys have received numerous recognitions, including ratings of AV Preeminent® by Martindale-Hubbell, *Colorado Super Lawyers*, *Top 100 Trial Lawyers*, *Top Attorneys*, and *The Best Lawyers in America*. For the past few years, the Firm has been designated as a Go-To Law Firm® for the Top 500 Companies.

Our Clients:

Martinez Law Group's clients range from individuals to Fortune 100 companies in various industries, including engineering, satellite broadcasting, utilities, homebuilding, travel and hospitality. In addition to representing companies of all sizes, the firm handles a select number of plaintiff's cases, including prosecution of trade secret, and non-competition disputes, as well as class and collective actions. Martinez Law Group also works with national firms as co-counsel or local counsel for clients in Colorado.

About the Firm's Founding Member:

Meghan Martinez worked for a dozen years at a large national firm (including seven years as partner and as co-chair of that firm's Employment Department) before deciding to form her own law firm. "I enjoy establishing strong working relationships with our clients and being able to participate meaningfully in the way they do business. From a smaller firm, I can provide the same quality of services for clients, while offering flexible and creative billing options."

Railroad Litigation
Commercial Litigation
Occupational and Toxic Torts

Motor Carrier Litigation

Construction Litigation

Carlos Rincon has been licensed since May, 1989, and has practiced exclusively in El Paso, Texas. Since that time, Carlos has tried to verdict numerous catastrophic injury and wrongful death cases arising from actions against homeowners, motor carriers, retailers, product manufacturers, owners of construction sites and railroads. In addition, Carlos has successfully tried UM/UIM matters to verdict along with litigating coverage disputes.

Rivero Mestre focuses exclusively on litigation matters. Our multilingual attorneys and staff are ready to take on national and international litigation challenges in the following practice areas:

Complex Commercial Litigation

Because of our trial experience, we begin with the end in mind. We start from the certain knowledge that all pre-trial litigation must be directed to ultimately winning a trial. We are experienced trial lawyers who handle business cases from investigation to verdict and appeal in every conceivable type of commercial dispute. By preparing for the ultimate contest, we improve our clients' position at every stage of the case. Because of the depth and breadth of our experience, we are able to handle both general commercial cases and cases in more specialized areas of the law, allowing us to be cost-effective and deliver value.

International Litigation & Arbitration

From our Miami and New York offices, we focus on resolving complex, high-value international business disputes. The firm routinely represents clients in federal and state courts in the U.S. in litigation arising out of international business operations. As a result, we are experienced with the legal doctrines and practical considerations that repeatedly arise in international business disputes.

We are battle-tested in cross-border arbitration all over—from a Spanish-language arbitration under Ecuadorian law in Mexico City to an English-language arbitration in New York under Mexican law for a Dutch client. Our multilingual and multicultural lawyers are uniquely equipped to assist you in resolving your international disputes through arbitration.

Rivero Mestre has represented clients in disputes administered by the International Chamber of Commerce, the American Arbitration Association (including its International Center for Dispute Resolution), JAMS, FINRA, NYSE, Stockholm Chamber of Commerce, and the Caracas Chamber of Commerce, as well as in "ad hoc" arbitrations. Reflecting the excellent reputation the firm enjoys, from time to time our lawyers are nominated to serve as arbitrators by experienced litigators at other major firms.

Internal Investigations

If your company needs an internal investigation, you have a dangerous situation that requires highly-skilled and experienced outside counsel. Such investigations pose a thicket of potential problems, like privilege waiver and independence challenges. Rivero Mestre has conducted internal corporate investigations in the United States and in foreign countries involving varied allegations of wrongdoing from securities fraud to accounting malpractice to Foreign Corrupt Practices, while crossing languages, borders, and cultures.

We have also represented companies and boards in derivative and other litigation related to internal investigations, and we have advised clients about their rights under D&O insurance policies.

White Collar Criminal Defense

Rivero Mestre's highly-skilled team of white-collar practitioners has represented public officials, executives, managers, corporations, and professionals in the most sensitive of regulatory, state, and federal investigations, and at all stages of white-collar criminal litigation in federal and state courts.

We have defended our clients against allegations of corporate misconduct and personal criminal liability in every imaginable sector of the economy including: securities, banking, financial services, accounting, government contracting and procurement, health care, environmental, taxes, insurance, bankruptcy, computer and intellectual property, and international trade and investment. We also have substantial experience with the complexities of the Foreign Corrupt Practices Act, the money-laundering statutes, and forfeiture laws.

OUR THREE CORE PHILOSOPHIES:

SUBSTANCE

The law is not a stagnant set of rules, but an ever-evolving body of principles that are applied differently to different situations. And the people who make decisions that affect your legal rights - judges and juries - bring with them views that have been formed by experiences in everyday life about everyday matters.

Being an effective advocate requires a combination of intelligence, thorough preparation, competitive spirit, and healthy appreciation of the human condition.

Our lawyers have earned the respect of their peers and enjoy distinguished reputations in the community. But we have traveled different paths to excellence. We include former prosecutors, public defenders, and many who were trained at some of the nation's largest law firms. In our younger days we waited tables, tended bar, worked on assembly lines, lifeguarded, and sold insurance. Among us are graduates of the most prestigious colleges and law schools in the country and others from places of lesser renown. Our diverse perspectives and extensive experience as advocates allow us to work effectively with clients to shape strategies and positions that make sense to real people in the real world.

We will apply our collective talents, experiences, and achievements to find practical solutions to your problems.

QUALITY

We are committed to quality and efficiency.

Here is what we promise in our relationship with you:

- When you entrust us with a legal matter, you won't need to worry about it. We will do the worrying so that you can move on to other things.
- From the day we start working for you, we will plan and implement a comprehensive strategy to meet your needs. We believe in pitching, not catching. All along the way, we will collaborate with you.
- We will always be ethical and act in accordance with the highest professional standards.

Our first step is to understand your goals. Our second step is to work with you to create a plan to achieve them. Our third step is to bring our experience and expertise to bear on obtaining tangible results. We are not satisfied with less, and you shouldn't be either.

Our investment in technology is intended to enhance our ability to serve our clients efficiently. Also, our clients can choose to take advantage of our longstanding relationship with a major offshore legal services support firm, allowing seamless outsourcing of labor-intensive projects to a lower-cost alternative.

VALUE

Although a substantial portion of our work is conducted on a nationwide basis, our Midwestern roots are reflected in our pricing. We want to partner with our clients to reach the right solutions for all of us. And, while much of our work is done on a traditional, hourly basis, we offer a variety of alternatives on projects that are best approached differently:

- fixed-fee contracts focused on specific types of matters;
- fixed-fee contracts based on the phases of a matter;
- fixed-fee contracts for specific services; and
- outcome-driven fees ranging from traditional contingency fees to hybrid billing.

There's no one best system. A value-oriented, more flexible approach is a better model for both attorneys and clients.

REPRESENTATIVE MATTERS

We invite you to visit www.tlgattorneys.com for more examples of our experience...

Obtained a complete defense jury verdict for client in a case brought by a student gymnast who claimed \$57 million in economic plus punitive damages after being rendered a quadriplegic in an accident on an allegedly defective tumbling device. The trial lasted over a 5 week period and involved numerous fact and expert witnesses. This case was widely publicized nationally and locally.

Successfully represented a national food chain in a two and a half week jury trial of a breach of contract claim for \$20 Million brought by a supplier claiming antitrust and unfair competition practices that caused it to go bankrupt.

Obtained non-suit in a case involving the death of a 14-year-old with a known and documented heart condition (hypo tropic cardiomyopathy), who died while participating in a physical education course. Notably, TLG was retained only one month before trial and prior defense counsel had taken no depositions and had received an order precluding the client from offering any expert testimony at trial. TLG also successfully handled the appeal to the Superior Court, where the grant of non-suit was affirmed.

Represented a major Philadelphia employer in an employment discrimination case brought by nine Plaintiffs. Eight of the plaintiffs' cases were dismissed by motions and the remaining plaintiff settled for what amounted to a few weeks of his salary.
