

## Experience Matters

Founded in 2006, Wilson & Chan, LLP is a MBE/DBE-certified law firm based in Manhattan, specializing in construction law, commercial law and litigation, corporate structuring, start-up advisory services, personal injury defense litigation, insurance claims (including interpretation of insurance policies, coverage disputes, indemnification, and the defense of tort liability litigation), and outside general counsel services.

Our attorneys offer practical experience combined with nearly 20 years of legal expertise and uncompromising attention to detail to provide a solid foundation for client success. Our attorneys' experience with large law firms, combined with a smaller firm's ability to minimize overhead and devote significant energy to each client, truly sets our firm apart.

We have been involved in 1000+ litigation and alternative dispute resolution matters with clients ranging from sole proprietors to multi-billion dollar public-private entities and municipalities, including the Metropolitan Transportation Authority (MTA), Battery Park City Authority, the City of Mount Vernon, the Dormitory Authority of the State of New York, and Westchester County.

Further, we have successfully negotiated deals on behalf of our clients with Google, Apple, ABC-Disney, NBC Universal, Visa, Bank of America, PayPal, and Ford.

When it comes to serving clients effectively, experience matters.

*"Our mission has been and will always be to provide our clients with access to the most sophisticated level of legal practice available, regardless of their size. We have led from the front on issues of diversity, inclusion, and equal access since our founding. Our firm's commitment to helping our clients achieve their goals is engrained in our DNA. That's why we do what we do. That's the difference our firm's approach makes."*

**Henry C. Chan - Founding Partner**
