

NAMWOLF | INTERNATIONAL LAW PRACTICE AREA COMMITTEE

The **International Law PAC** members concentrate on cross-border matters of all types, including regulatory, litigation, and transactions. The PAC provides a forum for its members to communicate and exchange ideas regarding the interpretation and development of law and policy pertaining to international litigation, arbitration, and other forms of alternative dispute resolution (ADR), as well as cross-border transactions involving international sale or provision of goods and services, investments, and financing. In addition, the PAC serves as a platform for its members to cultivate best practices, to address current international issues, and to build intra-PAC relationships. The International Law PAC complements the other NAMWOLF PACs by bringing specialized international legal knowledge to law firms and corporations who increasingly face global legal issues.

Additionally, LHDK&W attorneys are also experienced in trademark registration, patent and trademark litigation (including IPR and adversary proceedings before the USPTAB), technology licensing, product clearance and due diligence review.

Automotive Regulatory and Litigation: LHDK&W attorneys represent OEM manufacturers in regulatory matters before the National Highway Traffic Safety Administration, as well as serving as lead and national counsel for OEM manufacturers, suppliers and equipment manufacturers in catastrophic and wrongful death product liability, and warranty/defect related class action litigations. LHDK&W serves as an OEM manufacturer's product liability national discovery coordination counsel, including coordination of domestic and international aspects of discovery and preparation of corporate witnesses for depositions.

International Arbitration and Litigation: LHDK&W attorneys in its California and London offices represent clients before international arbitration tribunals, such as LMAA, ICC, SIAC and tribunals constituted under UNCITRAL rules, in claims often involving tens or hundreds of millions of dollars.
