INTELLECTUAL PROPERTY

PRACTICE AREA COMMITTEE

Directory

The Intellectual Property Practice Area Committee includes a group of law firms and attorneys having a focus on all aspects of intellectual property law. The IP Practice Area Committee was organized to foster collaboration with its members, and to provide a resource to other non-IP NAMWOLF attorneys and law firms as well as a resource for corporate counsel desiring opportunities to work with NAMWOLF firms on IP-related matters. The IP Practice Area Committee's member firms have significant experience in all aspects of patent, trademark, copyright, trade secret, unfair competition, data rights, computer/internet/privacy law, and other IP-related areas including prosecution, litigation, licensing, and transactional matters. The IP Practice Area Committee strives to facilitate opportunities for corporate entities and NAMWOLF member firms to develop mutually beneficial partnerships to advance the goals of all parties. Furthermore, the IP Practice Area Committee provides continuing legal education (CLE) programs, organizes corporate on-site meetings, and works on policy and other initiatives to further advance NAMWOLF's goals and to help establish practical relationships and engagements with corporate counsel and within the IP bar as a whole.

Intellectual property is a critical, valuable part of your business. It can also be leveraged unfairly to disrupt your legitimate business goals. Having represented both plaintiffs and defendants, our firm is adept at both protecting intellectual property and protecting your business from accusations of infringement.

Our substantive experience runs the entire IP spectrum: patent, trademark, copyright, and trade secret disputes. Because of the breadth of our practice areas, our attorneys have found themselves litigating IP disputes in multiple venues across the country including district courts, appellate courts (including the Federal Circuit), arbitration tribunals such as WIPO, the USPTO, and the ITC in Section 337 investigations.

A small sample of representative IP matters handled by our attorneys* include:

Patent Litigation

- In a design patent infringement suit, represented American Honda Motor Company against LKQ Corp., a supplier of aftermarket car parts. After an investigation into the extent of LKQ's copying of original Honda wheel designs, DTO contended that LKQ infringed 23 of American Honda's design patents covering original wheel designs for various Honda and Acura models. During the course of discovery, DTO successfully demonstrated that LKQ's accused wheels were identical to the patented wheel designs. LKQ subsequently settled on very favorable terms.

Trademark Litigation

- Represented the defendant in a trademark infringement lawsuit filed by aggressive trademark plaintiff, Monster Energy, in which our client's "Love the Monster" advertising campaign was accused of infringing plaintiff's "Monster" mark for beverages. The matter settled favorably during discovery.

Copyright Litigation

- Representing long-time client, PMC, in several lawsuits in which a celebrity photographer claims one of their copyrighted pictures was used without permission. To date, each matter has ended in a favorable settlement to PMC; some matters remain pending.

Trade Secrets

- Together with co-counsel, represented a revolutionary Los Angeles technology company in a lawsuit against its former chief engineer and other former employees for misappropriation of trade secrets. Obtained highly favorable settlement on the eve of taking first deposition in the matter.

Your Partner in Privacy

We provide businesses with practical, implementable, and cost-effective privacy solutions grounded in real-world regulatory experience.

Regulatory Experience Meets Practical Legal Counsel

Mac Murray & Shuster is a nationally recognized, women-owned law firm focused on consumer protection and privacy compliance and litigation. From entrepreneurial startups to Fortune 500 companies and everything in between, we help businesses proactively manage their regulatory compliance demands and establish a defensible position that reduces risk. Led by former state regulators, including an Ohio Attorney general, our team brings an intimate knowledge of these laws that only comes from having helped shape the regulatory landscape themselves.

Powerful Partnership

Privacy compliance is not one-size-fits-all. The rules governing how you collect, store, use, share, and dispose of sensitive consumer data are expanding at every level of government, and the consequences of getting it wrong are growing alongside them.

Our Privacy group is led by Certified Information Privacy Professionals (CIPP/US) who work hand in hand with your team to build compliance solutions that align with your business goals without impeding financial, operational, and innovation objectives. Because the most effective compliance program is one your organization can actually implement.

We help clients understand their regulatory obligations, assess current data privacy practices, close compliance gaps, engage productively with regulators, and defend against enforcement actions and litigation when they arise.

We advise on global, federal, and state privacy laws & industry best practices, including:

CCPA/CPRA and other state privacy laws | GDPR
BIPA | GLBA | HIPAA | FCRA | FDCPA | COPPA

Our practice covers all aspects of intellectual property procurement, enforcement, and transactions, including trademark, copyright, patent, and trade secret. We regularly help clients with legal issues related to media, advertising, and marketing. We provide strategic intellectual property counsel to companies at all stages of growth, assisting our clients to acquire, manage, license, develop, prosecute, and defend intellectual property in all forms.

Litigation

Zuber Lawler's attorneys are known for prevailing in challenging disputes involving intellectual property. Our IP trial teams handle high-stakes domestic and international litigation, including cross-borders matters that involve multiple jurisdictions and legal systems and alternative fora and resolution mechanisms. We consistently achieve outstanding results for our clients in complex, precedent-setting intellectual property disputes and cutting-edge transactions, while remaining focused on finding the most convenient and cost-effective solution for our clients' objectives.

Prosecution

Zuber Lawler's trademark and patent prosecution teams secure our clients' domestic and international rights in established and emerging industries and areas of practice. Our lawyers are known for innovative approaches to prosecution, from obtaining meaningful trademark and patent coverage for cannabis-related brands and inventions notwithstanding ongoing federal prohibition, to securing and enforcing rights in China and other emerging markets.
